

Ph.D & M.S. Scholarship
Electrical and Information Engineering (EIE) / Computer Science (CS)
Seoul National University of Science and Technology

Ph.D & M.S. Scholarship Opportunity

Faculties in the Department of EIE and CS are looking for highly motivated full-time Ph.D & M.S. students interested in conducting cutting-edge research in telecommunications, wireless systems and device.

Description

- The chosen Ph.D & M.S. candidates will be enrolled as full-time graduate students starting from **March 2016**.
- The position is fully funded including a tuition waiver and competitive monthly salary.
- The main research directions of the group are
 - [Subgroup 1]** Wireless Communications & Networking: wireless communications and computer networks including next-generation cellular networks, IoT communications, MIMO systems, etc.
 - [Subgroup 2]** Devices and Systems for Wireless Communications and Biomedical Applications: RF component & antenna design, RF/Analog/Biomedical/Power integrated circuit & system design.

Application Procedure

An interested applicant selects either subgroup (or both) based on his or her research plan and email the scanned copy of the following to the corresponding contact point by **Oct. 15, 2015**.

1. Detailed CV in English
2. Official transcripts of previously attended undergraduate & graduate institutions
3. Certificate of TOEFL/IELTS/TOEIC score if available

Contact Information of Subgroups

[Subgroup 1] Wireless Communications & Networking: Prof. Ji-Hoon Yun, ms.seoultech@gmail.com

[Subgroup 2] Devices and Systems for Wireless Communications and Biomedical Applications:
Prof. Jae-Young Chung, rf.seoultech@gmail.com
